## Review

Hop on the scale

Time to get pumped up

# Yourself!Fitness

PUBLISHER **RESPONDESIGN** | DEVELOPER **RESPONDESIGN** | EXTRAS **480P**  
ESRB **E** | WEBSITE [WWW.RESPONDESIGN.COM](http://WWW.RESPONDESIGN.COM) | MULTIPLAYER **NONE**

**0** kay, so it's not technically a game. But sitting on your Doritos-engorged ass swilling Mountain Dew while your arteries harden ain't no game

either, chumpoDeZ. When you decide it's time to do something about that spare tire, don't just talk about getting in shape — get in shape with **responDESIGN's** excellent new interactive exercise

program, **Yourself!Fitness**. Much more than some cheery fitness CD-ROM, **Yourself!Fitness** is a completely interactive program that lets you set goals, focus on different body parts, plan your meals, and even do yoga.

Everything is captured by **Maya**, your easy-on-the-eyes 3D personal trainer. She not only leads you in working out, but also supplies encouragement along the way.

Since it's built like a videogame, the workout environments are beautifully rendered 3D worlds. You may have always wanted to do yoga in some ancient mountaintop temple, but how often do you get the chance? **Yourself!Fitness** offers

scenes like that to help you feel more at peace. Ohm.

Everything that you need to get your flabby butt in shape is included in **Yourself!Fitness**, except for equipment, which isn't a requirement. The only thing missing is your own willpower. Stick with it and the pounds will melt off. We'll check back in with this editor in a future issue to see his own willpower at work.

— Tom Price

■ If you giggle at the words "squat," "pump," or "thrust," then it's time to grow up. Seriously.

### THE VERDICT
